## No other well tank can compete at this price point.

Engineered with contractors' needs in mind, affordable Challenger well tanks are built with CAD-2 technology (Flexcon's famous controlled action diaphragm system). In short, you get superior air and water separation, incredible durability, and unmatched performance all at an unbeatable price!

FLEXCDN
I NDUSTTR IES

16 - gauge solid steel tank, finished with highest quality urethane paint to stand up to the dampest basement or crawl space.

Water chamber is independent of tank walls, allowing diaphram to be properly sized for each tank.

Steel clench ring regulates movement and prevents diaphragm from rubbing against tank wall.

CAD-2 diaphragm technology: strong, $100 \%$ butyl diaphragm and copolymer polypropylene lower water chamber for maximum water and air separation.

Condensation-reducing design virtually eliminates external corrosion.

## MATERIALS OF CONSTRUCTION

- Tank: 16-gauge cold rolled steel
- Finish: Appliance-quality paint for indoor or outdoor installation
- Water chambers: Top diaphragm is $100 \%$ butyl rubber, lower water chamber is copolymer polypropylene
- Connection: Welded stainless steel NPT thread
- Air valve: Brass valve with O-ring seal
- Testing: High pressure, seam weld, helium, final precharge check
- Warranty: 5 year
